HEAD'S MESSAGE

Dear Parents/Guardian,

We have come to the end of week four. Our highlight for week four was the Year Nine Subjects selection for IGCSE talk. The talk was very successful going by the number of questions that came from the Year Nine students. Students were taken through the different subject groups by the Senior Leadership Team and educated on how to wisely choose subjects depending on their future careers. HODs presented new subjects in Key Stage 4 to Year Nine students.

A follow up online event for Year Nine parents on subject's selection will take place this Saturday from 10:30am to 11:30am. All Year Nine parents are requested to join the online forum as this is perhaps one the most

important decisions the students and parents have to make as it will affect their O levels, A levels and University/College Education.

Year Nine subject selection booklet has already been shared in the Year Nine Teams Account. The subject selection booklet contains careers and their corresponding subject requirements. Kindly take time with Year Nine child to study the booklet.

Finally, I would like to introduce to you our new Head of Pastoral, Mr. Williams Motto. Mr. Motto will oversee all pastoral issues in the school. He will work closely with Mr. Maina our Head Proctor.

Enjoy your weekend and God Bless You.

From Academic Coordinator's office

- As we approach half term, we would like to remind you of the forthcoming mid-term tests. Kindly ask your child to prepare well for this test as it will contribute 20% towards the End of Term Examination grade.
- Mid-term tests start on 21st May 2021 and end on the 27th May 2021
- Year 7 and 8 Waterloo Gauss Mathematics Contest was held on Thursday 13th May. We expect fantastic results after marking is done.
- We urge parents to pick from school on time after school. Parents are reminded that Year 7 and 8 lessons end at 3:00pm and year 9 and 10 lessons end at 3:20pm.

IGCSE BUSINESS STUDIES (0450/11) EXAM Reporting Time 01:30 pm

Weekly tip

Ways You Can Help Your Children Succeed At School

- Meet your child's teacher. As soon as the school year starts, try to find a way to meet your child's teacher. Let the teacher know you want to help your child learn. Make it clear that you want the teacher to contact you if any problems develop with your child. Talk with your child's teacher offers some great tips for developing a partnership with your child's teacher.
- Get to know who's who at your child's school. There are many people at your child's school who are there to help your child learn, grow socially and emotionally, and navigate the school environment
- Attend parent-teacher conferences and keep in touch with your child's teacher. Schools usually have one or two parent-teacher conferences each year. You can also ask to meet with your child's teacher any time during the year. If you have a concern and can't meet face-to-face, send the teacher a short note or set up a time to talk on the phone.
- Find out how your child is doing. Ask the teacher how well your child is doing in class compared to other students. If your child is not keeping up, especially when it comes to reading, ask what you or the school can do to help. It's important to act early before your child gets too far behind. Also' be sure to review your child's report card each time it comes out.
- Make sure that your child gets homework done. Let your child know that you think education is important and that homework needs to be done each day. You can help your child with homework by setting aside a special place to study, establishing a regular time for homework, and removing distractions such as the television and social phone calls during homework time. Helping your child with homework offers some great ideas for ensuring that your child gets homework done.
- Help your child prepare for tests. Tests play an important role in determining a student's grade. Your child may also take one or more standardized tests during the school year, and your child's teacher may spend class time on test preparation throughout the year. As a parent, there are a number of ways that you can support your child before and after taking a standardized test, as well as a number of ways you can support your child's learning habits on a daily basis that will help her be more prepared when it's time to be tested.
