TERM 3 OPENING ASSEMBLY

This term started on a very high note on Tuesday 16th April. Nonetheless, the students and staff attendance was impressive. Your sons and daughters came well groomed.

The teachers made various announcements followed by our senior school leaders, led by the Head of School Mrs. Sujata Yanamandra and the Deputy Head of school Mr. Nelson Njuguna. In a nutshell, the students were reminded to maintain discipline and begin the term with vigour instead of waiting for exam time to begin working hard. They were also reminded about the need to actively get involved in the term activities which are captured in the school calendar that was already sent to parents.

We look forward to a successful term and a fruitful academic term both in academics and non-academic activities.

A section of our students listening to announcements during the first assembly of the third term.

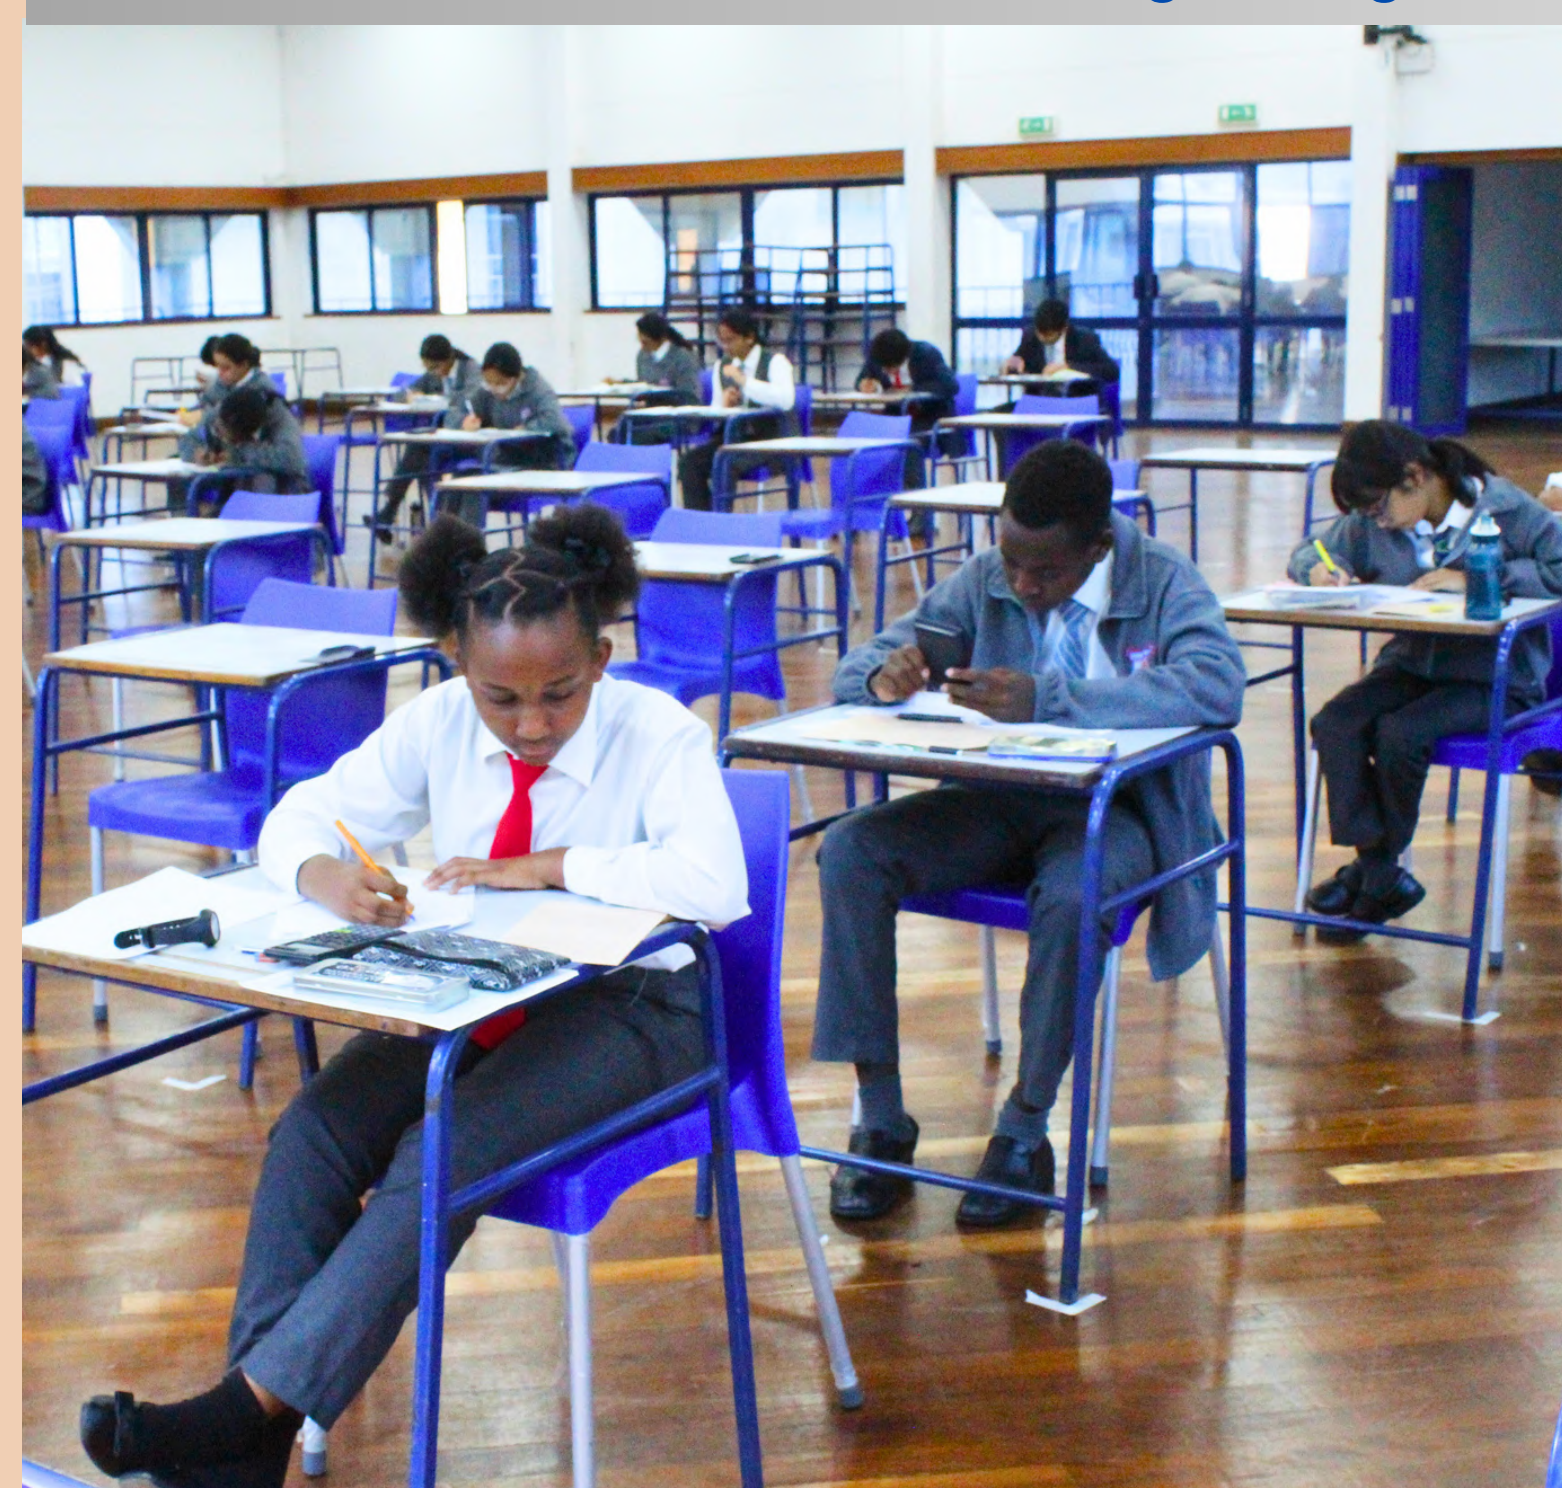

MATHEMATICS CONTEST 2024

For the past three years, our students have taken part in the University of Waterloo Mathematics contest and this has really helped them to drastically improve their skills in the subject. The program also presents students with an opportunity to compete with their peers across the world. On 5th April this year, some of our year 9, 10 and 11 students participated in the competition and now we are waiting for the results patiently. Students will get certificates which will help them while applying for further studies at the University of Waterloo and other renowned world universities.
