ENGLISH DEPARTMENT INTERNAL TRAINING IN PICTURES

INCLUSIVE EDUCATION DEPARTMENT NUMERACY LESSON

Numeracy lesson helps students grasp the fundamental concepts of addition and multiplication. By combining hands-on activities, practice problems, and real-life applications, students gained a deeper understanding of these essential mathematical operations.

MESSAGE FROM THE SCHOOL NURSE MS. OWUOR

Ms. Owuor School Nurse

Dear Parents and Guardians,

I would like to extend my heartfelt gratitude for your ongoing support in ensuring the health and well-being of the students. Your efforts are greatly appreciated and the care you give to your children is surely commendable.

As we continue to work together to keep our students healthy, I would like to kindly bring to your attention some gentle reminders:

- Medical check-ups: Kindly ensure your child receives prompt medical check-ups if they are not feeling well from home. Regular health check-ups are also encouraged as an essential measure of catching any potential health issues early and ensuring our students are in optimal health.
- Asthma management: All Known Asthmatic students must carry their inhalers to school each day. Having this on hand is vital in case of an emergency. This will help with managing any unforeseen situations swiftly and effectively.
- Health before school: While we provide First Aid to minor accidents and ailments caught in school, we kindly request that students come to school healthy. If your child is unwell from home, please seek appropriate medical care before they attend classes to ensure a healthy school environment for everyone.

Thank you once again for your continued cooperation and commitment towards your child's health.
